

Soothe your soul:(in G, 3 /4 time)

time

(fun fact: G+ and Gaug are the same chord!)

D11 **G**

D11 **G**

D11 **G**

Saturday I dropped you off at home

D11 **C** **G**

You said you had your place all alone

D11 **G**

You been goin' in and workin' late but your hair's getting long

D11 **C** **G** **G**

And she'd always said "a beard on you is wrong".

Em6 **C**

Get some glasses out and shut the door,

Em6 **C**

Cause I don't wanna hear excuses anymore.

Em6 **C**

You just keep saying that you're never that strong, so open up

Am7 **D7**

and talk to me cause I won't let this be that last

G **G**

song. -

G **G+** **G6** **G7**

They say that everytime, that anyone has all the things they need

C **Am7** **G** -

they let some go it's too much to control

G **G+** **G6** **G7**

You know that part of you can sometimes be a little bit confused

C **Am7** **G** -

just let it wash right out of you, to soothe your soul

G x 4

 You bite your lip it's hard enough to breathe
D11 **C** **G**
 Headache nights, barely let you sleep

 Your sighs already tell me what you mean

 Cause it rushes back, none of it's a dream.

Em6 **C**
 You don't have to think of something new
Em6 **C**
 Cause when you say those words, they just don't sound true
Em6 **C**
 It takes a lot of guts to say where you went wrong, so open up
Am7 **D7**
 and talk to me cause I won't let this be that last
