Honey bring your bacon

A

Home to me

You get what you get

And you net what you net

If they let you you'd net anything
you could

It's all well and good

Nothing in this world is free

Honey bring your bacon home to me

They say that greed ain't bad

But you wonder bout the guy who said it

If you bring your bacon home to me

Honey you'll never regret it

Your money's green

But it ain't clean

Everybody says it makes you mean

But you don't care

They can put it there

Ain't nothing in the world is free

So honey bring your bacon

Home to me
