

[A] [D]
I got your letter and it cheered me up
It's been a long time, you've been on my mind
I miss your face and I miss your voice

[Bm] [C#m]
How did we get so far apart?
You never left that place in my heart

[no chord] (one two three four)
[play it through]

Every now and then when the light's just right
Every now and then when the wind blows through
Every now and then I dream of you

And it's good to know that you're alright
It's good to know that you dream, too

[high D] [A]
I'm gonna grab me a pen and paper, Gonna write right back to you
I'm gonna tell you all the littlest things And everything I do
I'm gonna chat chew and make believe That you're right here with me
[Bm] [C#m]
Gonna laugh and cry when I get to the end and I write goodbye to you
