

It Matters, Jed Rivers

A B
We've been treating each other badly
A B
we've been letting loose language fly by
A B
I've accused you of being a traitor
A B
You've accused me of being a spy

We have gathered our forces together
We are collecting our weapons of choice
And declaring our stance in with our stick in the sand
We keep raising the tone of our voice

E B
It matters what you say.
E B
It matters how you say it.
E B
It matters how we take it in
E
So listen

Can we find a way out of this mess
Can we find a way up through this hole
Is there a chance of forgiveness
Can we save our collective soul

It matters what you say.
It matters how you say it.
It matters how we take it in
So listen

Will we find a way to hear each other
Can the Union again carry on
Do we want to stay stuck for the rest of our lives
Is their something to build upon.

It matters what you say.
It matters how you say it.
It matters how we take it in
So listen
