

Go Away

Sabodog

(A7) You went away in the morning, but you'll stay in our hearts

(G) We hold our hands in a circle, in the place called home

(A7) When the rain stops and the sun shines through

We don't wait, we don't cast stones

(G) It's all we have, it's all we've done

When you go away, (A) we're still one

(A?) We're still one, we're still one

(A7) Our parts done, but we're still one

(A?) Second parts here, and we're still here

(A) We're still here, We're still here

It's everyone's story, it's the age old tale

The journey away, is the journey to

Some are leaving, some are left

It's not stealing, it's not theft

Life's always moving, so bite on through

You've got to shift, You've got to move,

We're still one, we're still one

Our parts done, but we're still one

Second parts here, and we're still here

We're still here, We're still here
