Get Myself Out - transcription of FLASH improv, Stumpy, Jan 2023 (Bb Eb F)

I am in the ocean
Just me
Floating around (floating around)
In the ocean (what are you doing there?)

I'm lying on my back
Just looking at the clouds
Water in and out of my ears (in and out of my ears)
I don't feel much

I'm not too sure
Exactly where I am (you're in the ocean...)
I feel myself being pulled
This way and that (this way and that)

I feel the temperature of the water change
(c-c-cold c-c-cold c-c-cold)
 I feel a little bit frightened
Out in the ocean (all alone)

I decide
To lift my head and see where I am
That makes me even more scared (why are you scared?)
I'm pretty far out

I'm in the ocean
I think it's time to get myself out (get yourself out)
Get myself out (of the ocean)
Of the ocean
