

In the Street - Toby

C **Dm** **G7**
On my street there's so many faces, that I know
C **Dm** **G7**
How long will I wait, to ask their name, and tell them mine
C **Dm** **G7**
Walk these same steps, ten thousand times, but each step it's new
C **Dm** **G7**
Now that the sun's setting late, I've got an idea for you

F **G**
Let's have one big party in the street,

And that will make us all

C **Dm** **G7**
Children, playing on the asphalt together
C **Dm** **G7**
For just one day, when our feet feel light as a feather
C **Dm** **G7**
We'll take these cars, and let them roll away
C **Dm** **G7**
firefighter, please open up the hydrant today

F **G**
Let's have one big party in the street,

And that will make us all

C **Dm** **G7**
Children, dancing on the asphalt together
C **Dm** **G7**
For just one day, when our hearts feel light as a feather
C **Dm** **G7**
We'll chalk the whole street, a hopscotch long as a train line
C **Dm** **G7**
I'll bring the tables and you bring the wine

F **G**
Let's have one big party in the street,
F **C**
And that will make us all children
