

MY STREET, the song that goes nowhere
Sabodog

[G] My street is all covered in snow
[C] The power is out, and there's [G]nowhere to go
[D] The trees are all bending, it's still coming [C] down
[D] It's quiet and muffled, like [C] Christmas should [G]be

[C] But it's not Christmas time, it's not even the weekend
[D] It's late in the winter, at the edge of the spring
[C] We got 10 inches, but it's already melting
[D] Most likely be gone by [C] early next [G} week

[G] Early next week, I got shit to do
[C] In fact even today, I'm losing [G] time
[D] Just sit'n by the fire, [C] letting things go
[D] Waiting for someone to [C] fix the line

[G] Well, my streets a big mess it's all slushy and salty
[C] The guys from the town are out doing their [G] best
[D] On your street in your town, It's [C] likely the same
[D] We all need our streets, come the [C] snow, sleet or [G] rain
