

Civilization, Jed Rivers

The most effectual method of recovering a drowned person, April 5, 2023

Em.....

Em

Of all the crazy things we've done

C

To figure out this world

G

To try and get a grasp upon

D

The way it all unfurls

We've bled the sick and boiled the weak

We've penitentiared up the bleak

We cut the tongues of those who speak

And somehow think we are unique

We once proclaimed to all who'd hear

we are the center, it may appear

We can wake the dead

It has been said

And multiply some fish and bread

There is a tale, at least a page

No etching can surpass

That shows a drown-ed man brought back to life,
by blowing up his ass.
