G G/F# G/E D Am D Am D

Ophelia stands
And faces the nighttime rain
No more waiting for

The late bus to show
To take her to the promised
land she created

Deep inside herself
To leave the only place she
Has ever believed

Chorus

Bm Em Bm Em Bm Em A7 D

There's a band playing
For the lonely fools to dance
And dream away life

Do you hear it play
When you listen deep within
Melancholia

On the block standing
With the winding around you
Is it calling now

Is their peace within
nourishment alone inside
Do you hear the call

She's sometimes alone
When the wind moves joyfully
It's for her to hear

Chorus

Bm Em Bm Em Bm Em A7 D

There's a band playing
For the lonely fools to dance

And dream away life

Do you hear it play

When you listen deep within
