

You Make Me Moist - Stumpy, FLASH June 2023

[The eyes, in a girl's voice]

[n/c] You make me [F7] moist

You leave little [Bb] choice

You make me drip and [C7] flow

I just thought you should [F] know

You make me moist

I'm a total mess

Can't get a wink of rest

I itch and moan

[Me, in a neutral voice...]

That's what my eye

Said to my nose

When the pollen blows

Oh when the pollen blows

[The nose, in a boy's voice]

Oh you make me stiff

When I feel your drip

Tickle round the tip

Of my proboscis

You make me quiver

Snort and shiver

Oh the sticky juices flow

When the pollen blows

[Duet, twice]]

Oh we're so moist

We drip and swell

Were in histamine hell

Oh when the pollen blows
