

This ain't no time to be quiet Jed Rivers\

V1

G D
This ain't no time to be quiet. Though I prefer it any day

G D
This ain't no time to be quiet. There's too much getting in the way

C G
This ain't no time to be quiet. Our silence feeds the might

C D
This ain't no time to be quiet. We've got to stand with right

V2

This ain't no time to be quiet. No matter how good it feels
This ain't no time to be quiet. The hounds are snipping at our heels
This ain't no time to be quiet. There's much to much to loose
This ain't no time to be quiet. Too many are being abused

Chorus

Em C
When we need to find the strength That will help us find the start

Em C
We can find the mighty words. That will soothe our weary heart

Em C
We can join each other in the fight To try and right the wrongs

D
Together we can still stand up. And sing together strong .

V3

This ain't no time to be quiet. We're letting the wrong side win
This ain't no time to be quiet. It's time for us to begin
This ain't no time to be quiet. Our voices must be heard
This ain't no time to be quiet It all begins with the word

Chorus:

When we need to find the strength That will help us find the start
We can find the mighty words. That will soothe our weary heart
We can join each other in the fight To try and right the wrongs
Together we can still stand up. And sing together strong .
