

The River Knows Your Name by John Hyatt

G

C G C G

Oh the river, knows your name

Em D C

And your tears falling like the rain

D Em C

All around you suffering and pain

G D G

Oh the river knows your name

C G C G

And the river hears you cry

Em D C

As the lightning cracks the open sky

D Em C

As your mama sings a lullaby

G D G

Oh the river, she knows why

C G C G

Let the river wash you down,

Em D C

'Neath the surface with a rushing sound

D Em C

Like a freight train passing through a town

G D G

Let the river wash you down

C G C G

Let the river take away

Em D C

All the words you and I could never say

D Em C

In the silence darling let us pray

G D G

Let the river take all away

C G C G

Oh the river knows your name

Em D C

From the Brazos to the Wabash to the Seine

D Em C

No two journeys are ever quite the same

G D G

But the river knows your name

G D G

Oh the river knows your name
